Education

Troy High School

I have completed the necessary requirements mandated by the Troy Tech Program and have graduated from Troy High School in May of 2017. I have taken several ROP (Regional Occupation Program) classes including CAD Design, Art and Animation, Child Development and Principles of Teaching and Learning.

College

I am currently attending California State University Fullerton and pursuing a Master's Degree in Computer Science. I intend to graduate in 2023.

Technical Skills

Programming

C, C++, Python, Bash

Linux System Administration

I have a strong grasp on how to set up and maintain personal Linux machines.

Please refer to [this repository](#) for a detailed outline of my knowledge.
